Source: UCOA and other RIDE Databases; % free/reduced lunch, % Differently Abled, and % Multilingual Learners are from the 2022-23 October 1st enrollment data collection. For definitions of categories, see UCOA Accounting Manual (<https://tinyurl.com/UCOAManual>).
 Disclaimer: The data may reveal significant spending discrepancies among and within LEAs. Users of the UCOA must take care not to jump to conclusions or make assumptions. If there is an apparent discrepancy – an especially high or low district expenditure in any area – school officials can provide clarification.

UCOA

RESOURCE ALLOCATION DASHBOARDS (2022-2023)

This set of interactive dashboards allows users to explore how Local Education Agencies (LEAs) allocate resources between the schools in the LEA. For LEAs with just one school, it allows users to compare with other LEAs with only one school. The first dashboard examines whether LEAs allocate resources progressively, that is, whether schools with larger share of disadvantaged students have higher per pupil expenditures (this sheet is not available for LEAs with just one school). Subsequent dashboards dig deeper on how each LEA allocated monetary resources and staff between schools and how it relates to student demographics, teacher characteristics, source of funds, and assessment outcomes.

The source of all the data in this dashboard is the Uniform Chart of Accounts (UCOA), RIDE Report Cards, and End of Year Enrollment files.

Single Site LEAs

North Kingstown (2022-23)

The **Progressivity Index** is the difference between the average spending by schools in a district on non-High Needs students and High Needs students. **High Needs** is defined as students that are either economically disadvantaged, multilingual, or differently abled.

District-wide, High Needs students in **North Kingstown** attended schools that spent **\$1,215 more** per pupil than non-High Needs students. In other words, **North Kingstown** spent **\$1.07** on High Needs students per \$1.00 spent on non-High Needs students. Use the dropdown to select the demographic characteristic used to calculate the progressivity index.

Disadvantage Category
High Needs

Expenditures per disadvantaged student	\$18,815	Difference \$1,215
Expenditures per non disadvantaged student	\$17,600	

Progressivity varies considerably by school level. This calculation is only different from \$0 when the District has more than one school in the level (Elementary, Middle, High School).

Elementary Schools	Expenditures per disadvantaged student	\$19,487	\$2,100
	Expenditures per non disadvantaged student	\$17,387	
Middle Schools	Expenditures per disadvantaged student	\$19,288	\$497
	Expenditures per non disadvantaged student	\$18,791	

This chart explores the relationship between **per-pupil expenditures** and **student demographics**. Bar graphs represent the per pupil expenditures in 2022-2023 and the circles represent the percentage of students in the school for the demographic group selected. This chart displays the per pupil of expendiutes reported in district level locations (e.i. Central Office) for reference.

The expectation is for LEAs to allocate the resources in a way that matches the needs of the students. That is, schools with higher percentages of multilingual, differently abled, and economically disadvantaged students should generally have higher expenditures to provide opportunities to these students. The graph also displays other school characteristics that can impact per pupil expenditures such as enrollment (ADM), and grade span. Use the dropdown to select the demographic characteristic to display. At risk is defined as students that are either economically disadvantaged, multilingual, or differently abled. Hover over the graph to see historical enrollment and per pupil information.

 ■ SAT % ELA Proficient

% FRPL **11.0%** School Level All **64.4%**

North Kingstown (2022-23)

This chart explores the source of funds expended by schools in the District. The bar graph represents the **school per pupil expenditures** and the shades identify the **source of funds**. Circle colors present the percentage of students in the school of the demographic characteristic selected. Hover over the bars to display details about the type of federal funds expended. Use the dropdowns to select the student demographic to display and filter state/local and federal funds.

Federal funds are expected to be distributed more progressively with schools with higher percentage of at risk students receiving more funds. This is particularly true for Title I and economically disadvantaged students, Title III and multilingual learners, and IDEA and differently abled students.

% Free Reduced Lunch

North Kingstown (2022-23)

One of the major drivers of per pupil expenditures is class size. The bars in this chart represent the **school instructional per pupil expenditures** and the orange circles represent the **students per teacher ratio**. Hover over the bars to see a graph with the cumulative percentage change in teacher FTE and student enrollment and a graph with the historical students per teacher ratio.

Instructional per pupil expenditure and student per teacher ratios are correlated and schools with higher students per teacher ratio generally have lower instructional per pupil expenditures. Schools with Pre Kindergarten classes generally have lower students per pupil ratios and higher instructional per pupil expenditures. Look for differences in student per teacher ratio between school and examine possible reasons. Changes in student per teacher ratio are often the result of changes in enrollment that are not countered with staffing adjustments.

School Level All

 Instructional PPE

 Students per Teacher

North Kingstown (2022-23)
